## CREATING A COLLEGIATE BALLPARK

Wake Forest's vision for the Baseball Project is to create a unique ballpark that provides fans with the best game day experience and fosters a true home-field advantage for our players. Acquired in 2008, The Wake Forest Ballpark has undergone dramatic enhancements that are already making a tremendous impact on both the training of our current student-athletes and the recruiting efforts of our coaches.

### Completed Phases:

Phase I - Completed January 2009

- Installed a new outfield wall
- Renovated the locker, training and equipment rooms
- Upgraded the coaches' offices

Phase II - Completed October 2009

- Built a climate-controlled indoor hitting facility with swing analysis equipment and state-of-the-art pitching machines

Phase III - Completed October 2010

- Installed artificial turf to provide a low-maintenance surface allowing for increased practice time and a stronger competitive edge

### Future Priorities:

- Installation of a state-of-the-art video board & scoreboard
- Complete stadium bowl renovation which will move the seats closer to the field and incorporate bullpens into the stands resulting in a more intimate ballpark setting; stadium renovation will also include improvements to existing lighting, concessions and restrooms

*"Through the continued support of the baseball project, Wake Forest Baseball Park will become the finest collegiate ballpark in the conference. The dramatic improvements to the facility are already having a significant impact on the development of our student-athletes, and the remaining enhancements will not only provide even more of a competitive advantage for our program, but also a fan experience that is unmatched in collegiate baseball."*

- Mike Buddie  
Baseball Sport Administrator
